EDUCATION

Carleton University

Bachelor of Computer Science, GPA: 3.7

Ottawa, ON

Graduated 2026

WORK EXPERIENCE

Department of Fisheries and Oceans Canada

Software Developer

Ottawa, ON

Sep. 2023 – Dec. 2025

- Led end-to-end delivery of two production Python applications and a cross-departmental team of full-time employees assembled for complementary technical and domain expertise across requirements, architecture, testing, staged deployment, and production support.
- Engineered a multithreaded Azure Storage Explorer using Python, Azure Blob Inventory, MongoDB, and SQLite to search and export records across approximately 420 TB of enterprise data; kept the interface responsive during long-running operations and built a fault-tolerant daily refresh that preserved the active database after failed updates.
- Architected a bilingual, modular, multithreaded Name Manager integrating the Geographical Names Board of Canada (GNBC) API and geospatial matching to validate names, coordinates, languages, and authoritative records; collaborated with GNBC stakeholders to identify integration issues and improve API usability.
- Managed Git-based version control, integration, regression, and user-acceptance testing, staged releases, and stakeholder feedback from DFO's five administrative regions and the Canadian Coast Guard before department-wide rollout.

Floxy.io

Frontend Developer – Contract

Remote

2025

- Built and shipped a production marketing website supporting 20,000+ customers and reaching 23.9K monthly visits within four months by using Next.js, React, TypeScript, and Tailwind CSS to deliver a responsive, SEO-focused user experience.
- Implemented mobile navigation, a proxy-type selector, auto-scrolling testimonials, language-specific API examples with copy-to-clipboard, reusable components, and centralized content models.

Tahan Business Services Inc.

System Administrator Intern

Ottawa, ON

May 2023 – Aug. 2023

- Administered Microsoft cloud services, configured automated real-time backups, deployed workstations, and troubleshoot on-site hardware and software issues.

PROJECT EXPERIENCE

Real-Time Sign Language Translator | Python, TensorFlow, MediaPipe, Flask, React

[GitHub](#) | [Live Demo](#)

- Built a real-time ASL translation system that converts 21 hand landmarks into 63-feature prediction vectors using MediaPipe and TensorFlow Lite, serving confidence-scored inference through a Flask API and a live React webcam interface.

Collaborative Board | Next.js, TypeScript, Convex, Clerk, Tailwind CSS, Bun

[GitHub](#) | [Live Demo](#)

- Built and deployed a real-time community board with authenticated posts, voting, threaded comments, live updates, protected actions, per-user vote tracking, ownership checks, and cascade deletion using Next.js, Convex, and Clerk.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, C++, C, SQL, HTML/CSS

Frameworks/Libraries: Next.js, React, Node.js, Express.js, Flask, TensorFlow, MediaPipe, Tailwind CSS

Cloud/Developer Tools: Microsoft Azure, Azure Blob Storage, AWS, Docker, Git, GitHub, Linux/Unix, Vercel, REST APIs

Databases: MongoDB, SQLite, Oracle, Convex
